

List of Phd Thesis

S. No.	Name	Year	Roll. No.	Thesis Title
1	Shashank Wekhande	1999		A new static VAR compensation for applications in active line current conditioning and induction generator control
2	Madhuwanti S. Joshi	2000		EMI/EMC Issues in power electronic systems
3	Sincy George	2005	407802	Active filter based power factor correction and harmonic elimination under non-sinusoidal conditions
4	R. D. Kulkarni	2006	95407703	Performance evaluation and improvement of safety - related instruments and equipment in nuclear power plants
5	Alemayehu G/Egziabher	2007	3423201	Multirate output feedback based digital redesign of sliding mode control algorithms and their applications
6	Sreekumar C.	2008	4423302	Investigations into the hybrid modelling and control of DC/DC power converters
7	Sachin Jain	2008	2407004	Single-stage grid connected photovoltaic systems with Maximum Power Point Tracking (MPPT)
8	Hiren Patel	2008	3407806	Investigations into the performance of photovoltaic systems operating under partially shaded conditions
