

COMNET

COMNET 2007

1st Annual Meet of Research Scholars of IITs and IISc
(July 02- 03, 2007)

Hosted by: IIT Bombay, Mumbai
<http://www.iwl.tenet.res.in/comnet/>

Objective

To enable sharing of knowledge and promote joint research work among peer communication and networking research groups from IITs and IISc.

Agenda

July 2nd (Monday)

Invited talks/lectures related to the Communication Systems and Networks research. The series of the talk/lectures are intended to motivate, educate scholars and keep them abreast with *recent* progress emerging areas of research and to look for new directions for furthering research.

July 3rd (Tuesday)

Dedicated for *parallel brainstorming sessions* of the different research groups working on PHY Layer, MAC Layer, Networking Layer, QoS, and Error Coding, etc, where the research scholars shall present & discuss their work. This will enable forming peer group, joint publications and short/long term joint project. There will be a parallel poster presentation session to enable interactions among the researchers.

Inter institutional round table sessions will be held during the evening hours of Day 1 and 2 to discuss existing projects and burgeon new ideas

We look forward to devote more time for recent projects, which began with concepts and have now been developed into products, so that the participants are enthused to think way beyond their Theoretical/Matlab/Network-Simulator/Qualnet/Opnet work.

Date: 2nd-3rd July, 2007

Venue: IIT Bombay, Mumbai
