Selection process for M.Tech. RA
Wadhwani Electronics Lab (WEL) May 2024

The selection process for M.Tech. RA applications to Wadhwani Electronics Lab (WEL) will be conducted in two stages:

1. Shortlisting based on performance in written test
2. Skill test of shortlisted candidates. The skill test will be conducted in WEL lab to evaluate engineering design and relevant laboratory skills (breadboarding circuits; using oscilloscope, function generator, multi-meter to debug circuits; reporting of experimental data and drawing inferences etc.)

Final selection will be based on performance in skill test. The schedule and further details will be announced on the online notice board.
