**Thunderbird Mail Setup.**

Follow the following steps as shown in the pictures.

**Fig1: Thunderbird Blank page**

**Fig2: Welcome Page**
Enter your EE login ID and Password and press Continue, then press Manual Config.

Fig3: Account Setup Page.

Enter IMAP and SMTP settings of Sandesh, mentioned in EE Webmail Page.
Fig 4: Settings of sandesh for Mail Client.
Add the Security Exception Message, if it pops-up.

Fig 5: Add Security Exception.

That's all, the Mail Client is now setup, and can be used.

NOTE: If you want to setup IITB GPO account, please visit GPO Homepage for Server setting details.
