

sum_3.xce

Attributes

```
main_vars: x1 x2 x3 y  
rparms: k1=1 k2=1 k3=1
```

Description

sum_3.xce gives $y = k_1x_1 + k_2x_2 + k_3x_3$.

The same relationship holds in AC analysis except that x_1 , x_2 , x_3 , y are treated as complex numbers.
