

sum_3.gce

Attributes

```
mainvars: x1 x2 x3 y  
rparms: k1=1 k2=1 k3=1
```

Description

sum_3.gce gives $y = k_1x_1 + k_2x_2 + k_3x_3$.

The same relationship holds in AC analysis except that x_1, x_2, x_3, y are complex numbers.
